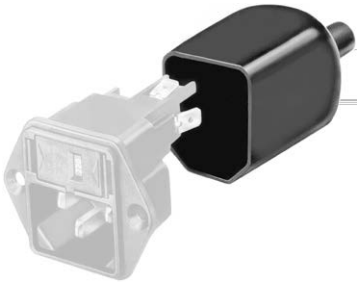
Rear Cover



E.g. DG11 with rear cover

See below:
Approvals and Compliances

Description

- The terminals of the SCHURTER appliance couplers can be protected against unintentional contact by the use of an insulation cover on the rear side. ,
- The flexible rear covers are made of black PVC and can easily be mounted from the rear to the corresponding appliance couplers.
- The covers do not insulate or hold in position live parts of opposite polarity.
- The protective covers may not be worked with hot air.

References

We recommend for new applications the type RC320
Mating cover to -> Go to Table of Variants
